REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 24th, 1897.

I. SESSION 1895–96.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1481, being a decrease of 44 on that of the preceding Session. Of these 1062 were Students in the College, and 419 Pupils in the School. Of the Students, 315 belonged to the Faculty of Medicine, 91 being new Students: in the Faculties of Arts and Laws and of Science there were 747 Students, 350 being new Students. The largest number of Boys in the School in any one Term was 367.

In the Faculties of Arts and Laws and of Science these figures show, as compared with the preceding Session, an increase of 18 in the new Students and a total decrease of 3; and in the Faculty of Medicine a decrease of 21 in the new Students, and a total decrease of 35.

The Fees received (exclusive of those for Clinical Instruction) amounted to £24,675 10*s.* 6*d.*, being £42 10*s.* 6*d.* more than in the Session 1894–95.

The details for the two Sessions compared were as follows:—

	1895–96.			1894–95.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	4,463	0	6	4,872	0	0
Faculties of Arts and Laws and of Science	12,001	10	0	11,721	3	0
School	8,211	0	0	8,039	17	0
	£24,675	10	6	£24,633	0	0

In addition to the above-stated amounts, the sum of £1,495 4*s.* 0*d.* was received for Clinical Instruction in the Hospital, making a total of £5,958 4*s.* 6*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £17,063 17*s.* 3*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division

at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was not awarded last year. The Horton Memorial Scholarship was awarded to H. N. Carvalho.

In 1896 10 pupils passed the Matriculation Examination of the University of London.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1891–92.....	454	459	446	453
1892–93.....	416	415	404	412
1893–94.....	390	377	369	378
1894–95	355	366	356	359
1895–96.....	349	353	367	356

From the Tables submitted it appears that 18 boys were entered in the Black Book last Session, the total number of entries being 19.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

THE BRANCH SCHOOL.

The Preparatory School at Hampstead is making satisfactory progress under the Head Master, Mr. C. Simmons. There are at present 76 boys in the School.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £2,420 15*s.* 9*d.*

There was at the end of the Financial year £2,098 7*s.* 7*d.* on the debit side of the Old Building Fund Account, and £19,693 7*s.* 1*d.* on the debit side of the Buildings Extension Account, 1890, representing expenditure on these accounts unprovided for by contributions.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1897, have been as follows:—in the Faculty of Medicine, 227, of whom 55 are new Students; in the Faculties of Arts and Laws and of Science, 585, of whom 274 are new Students.

The entries in the School, in Michaelmas Term, were 352, of whom 45 were new pupils; in the present Term, 339, 39 being new pupils; adding the 76 Boys in the Branch School at Hampstead, this makes 415 in all.

The College Fees received to February 1st are £2851 16*s.* 0*d.* in the Faculty of Medicine, and £8944 19*s.* 0*d.* in the Faculties of Arts and Laws and of Science.

Sir Joseph Prestwich.
Sir J. Russell Reynolds.
Mr. George Richmond.

THE PRESIDENCY.

Since the last Report was issued, the College has suffered a very severe loss by the death of Sir John Erichsen, who as Student, Professor, Member of Council, and President, first of the Senate, finally of the College, was connected with this Institution for a period of Sixty years. At a Special Session of the Council held Oct. 21, 1896, the following Resolution was adopted :—

> "That the Council wish to place on record their high sense of the valuable services rendered in various offices to University College by their late lamented President, Sir John Erichsen, who, by his scientific attainments, great ability, and sound judgment, secured the respect of all his colleagues as well as their affection by his conciliatory disposition.
>
> "He proved himself, in difficult times, a sure and experienced friend of the College, and his memory will be always held in the highest veneration by all those whose privilege it was to co-operate with him in advancing the interests of this College."

On Nov. 25th last, at an Extraordinary General Meeting of the Members of the College, The Rt. Hon. Lord Reay, G.C.S.I. (Vice-President), was elected President of the College in succession to Sir John Erichsen. Lord Reay is the Sixth President.

PROFESSORIAL AND OTHER APPOINTMENTS.

Mr. J. F. Blumhardt, M.A., for several years Lecturer on Hindi, Hindustani, and Bengali, has been appointed to the Professorship of Hindustani, which has been in abeyance since the retirement, in 1888, of Mr. Keane.

The Council have instituted a new Professorship of Indian Law, and have appointed thereto Mr. J. W. Neill, whose appointment as Lecturer on Indian Law was announced in last year's Report. Mr Neill has also accepted the Lectureship in Marathi.

Mr. E. Denison Ross has been elected to the Chair of Persian.

The Charity Commissioners, as announced in the last Report, have approved of a Scheme, submitted to them by the Council, for the administration of the Yates Archæology Endowment Fund, and Mr. Ernest Gardner, M.A., sometime Fellow of Caius College, Cambridge, and late Director of the British School of Archæology at Athens, has been elected to the Yates Chair of Archæology, which has been vacant since the retirement of Mr. R. S. Poole.

Mr. Thomas Raleigh, having accepted the office of Registrar of

the Privy Council, has resigned the Quain Law Professorship, and Mr. Augustine Birrell, Q.C., M.P., has been appointed his successor.

Last spring the Council received with great regret from Mr. Victor Horsley his resignation of the Professorship of Pathology, to which he was appointed in 1887. Dr. Sidney Martin, F.R.S., has been elected Professor of Pathology, and the Council have instituted a new Professorship of Pathological Chemistry, and appointed thereto Assistant Professor Vaughan Harley, M.D., who had charge of that branch of Pathological work under Prof. Horsley.

Mr. de Asarta has been appointed Lecturer on Italian.

Mr. A. L. Bowley has succeeded Mr. Price as Newmarch Lecturer on Statistics.

The title of Assistant Professor has been conferred on Mr. Frampton, A.R.A., Mr. Porter, B.Sc. (Physics), Mr. Tonks, F.R.C.S. (Assistant to the Slade Professor), and on Mr. Yule (Applied Mathematics).

INTER-COLLEGIATE ARRANGEMENTS WITH KING'S COLLEGE.

In consequence of a communication from the Technical Education Board of the London County Council, urging the establishment of further inter-collegiate arrangements between University College and King's College, such as have already been established in the department of Modern Oriental Languages, the Council has been in conference with the Council of King's College, and it is intended that certain special advanced courses, and the evening lectures, shall in future be the subject of such arrangements, and shall be announced in a common prospectus with those at King's College. The Council will be ready to give such further extension to these arrangements as may be consistent with the convenience of teachers and students, and may tend to the increase, and not to the decrease, of teaching facilities in the two Colleges.

UNIVERSITY FOR LONDON.

The London University Commission Bill, for the appointment of a Statutory Commission to establish a Teaching Side in the University of London, on the lines recommended by the Cowper Commission, was brought in to the House of Lords on 6th July 1896 by the Duke of Devonshire, as Lord President of the Council. It contained a clause providing that the Commissioners were to inquire into and have regard to the interests of both the internal and external students. That the internal students were for the first time specially mentioned in this connexion is due to the representations which were made on the part of the Council, in pursuance of the policy indicated in their last year's Report.

The Bill was read a second time without opposition on July 23rd, and was supported among others by the President of the College, then Vice-President, and by Lord Kimberley, a former President. The Bill passed the House of Lords on the 31st July, and was read a first time in the House of Commons on the 4th August, but owing to the lateness of the period, and the threat of opposition from various quarters, it was not further proceeded with.

This failure for a third year in succession to carry out the first step in the programme recommended by the Cowper Commission, by the passing of a short Bill merely to appoint the Statutory Commission, is a disappointment to the College, and, it is believed, to the other educational interests and institutions which are concerned. But it is not the case that no progress has been made during the twelvemonth. The policy indicated in the Report of the Council for 1896, of separation in the examinations of the internal and external students, has now been definitely accepted on all hands. As a result, there are indications, on the part of some of those who have previously opposed the Bill, of a disposition to come to an agreement on this basis.

If, as the Council are informed, the question of power to make grants to denominational colleges has also been set at rest, it is possible that the final solution may prove easier and nearer than was expected. The Council have adopted and communicated to the Lord President the following resolution:—

"That the Council of University College, fully relying on H.M. Government being about to introduce, early next session, a Bill for the creation of a Statutory Commission for the reconstruction of the University of London, desire to assure the Lord President that such a measure will have their earnest and active support."

THE SIR JOHN PENDER MEMORIAL AND THE U. C. L. ELECTRICAL DEPARTMENT.

Last autumn a large and influential Committee was formed, with the Marquess of Tweeddale in the Chair, to inaugurate a Memorial to the late Sir John Pender, the pioneer of Submarine Telegraphy, and it was confidently, and rightly, anticipated that a large sum would be subscribed.

The Committee, after careful consideration, resolved that the Memorial should take the following forms:—

"1st. That a bust of Sir John Pender be placed in a suitable Institution in London, at a cost not exceeding £500.

"2nd. That a sum of not less than £5,000 be placed in trust with the Council of University College, London, to form an Endowment Fund for the maintenance of the Electrical Laboratory in that College, on condition that the Council name the Laboratory the 'Pender Laboratory,' and the existing Chair of Electrical Engineering the 'Pender Chair of Electrical Engineering.'

"3rd. That a 'Pender Scholarship and Gold Medal' in connection with Electrical Subjects be established in Glasgow."

The Council have the pleasure in recognising that these very satisfactory resolutions, in so far as they affect this College, are largely due to the energy, tact, and devotion of Professor Fleming, who, putting personal considerations on one side, has worked with unremitting zeal on behalf of the Department under his care.

It is understood that the £5000 referred to in the second resolution has already been subscribed, and the Council hope that if the Scheme meets with the full success anticipated, a larger sum than that actually named may eventually be devoted to the Electrical Department of this College. Subscribers are at liberty to mark their donations as for University College, if so disposed.

PARLIAMENTARY GRANT AND TREASURY INSPECTION.

Early last year this College joined with other University Colleges in a Deputation to the Chancellor of the Exchequer praying for an increase in the Parliamentary Grant. In reply Sir Michael Hicks Beach informed the Deputation that he purposed appointing a Commission to inspect the Colleges and to report to him concerning them. This inspection was heartily welcomed by the Council. The Commission appointed by the Chancellor of the Exchequer consisted of Mr. T. H. Warren, President of Magdalen College, Oxford, Prof. Liveing, of Cambridge, and Mr. Robert Chalmers, of Her Majesty's Treasury.

So far as this College is concerned the inspection was carried out chiefly in the months of March and April. It did not, the Council regret, extend to the whole of the College, but only to certain portions selected by the Commissioners, presumably in accordance with their instructions. But, so far as it went, the inspection was thorough, and the Council await with confidence the publication of the Report which, it is understood, is already in the hands of the Chancellor of the Exchequer.

THE INDIAN SCHOOL.

This College has long been recognized by the Secretary of State for India as a place where the Candidates selected by competitive examination for the Indian Civil Service may pass their period of probation, reading for the final examination. The age-limit for candidates for the first examination has varied from time to time, and three years ago was raised to 23. One of the results was an increase in the number of the successful candidates who elected to pass their year of probation in this College. And the Council have reason to think that, if the age-limit is maintained at 23, the tendency to choose this College for final preparation, rather than Oxford or Cambridge, will grow, for the great majority of the Selected Candidates are Oxford and Cambridge men, who have already qualified for a degree in one of those Universities and, having as a rule, worked out their College Scholarships, have nothing to gain by remaining in residence there, and may be expected to appreciate the advantages of studying in London.

The "Indian School" in this College is completely equipped, and in London has no competitor. There is a Board of Indian Studies, of which the President is Chairman, Prof. G. Carey Foster, F.R.S., is the Censor, while the large staff of Professors and Lecturers is composed of men singularly eminent in their respective subjects.

The Council, however, have one great difficulty to contend with. There is no endowment for the Indian School, and it is impossible to pay the Professors adequately out of the students' fees. While Oxford and Cambridge have considerable endowments in connexion with Indian and Oriental studies, this College has none; and while Oxford and Cambridge receive from the Indian Government a yearly subsidy of £500 apiece, this College has been left to initiate, develope, and maintain the only Indian School in London without any subsidy at all from the Government of India.

These facts have been placed by the Council before the Secretary of State, and they have received a reply which indicates that a subsidy of £250 a year might be granted, provided that the Council spend a like sum, apart from fees, in connexion with the Indian School. The Council are happy to report that the Worshipful Company of Mercers has made a contribution of 100 guineas towards the £250 required for this year, and they earnestly appeal to all Members of the College, and especially to those interested in India, to assist them to obtain the subsidy which seems almost within reach.

LIBRARY.

The Supplement to the Library Catalogue has been printed as far as *Tayler*; the remainder is in the press. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as the other additions, excluding medical and zoological, acquired previous to 1887.

A Catalogue of additions to the General, Medical, and Grant Libraries during 1895 has been printed; and a Catalogue for 1896 is in preparation.

On Jan. 8, 1897, over 150 vols. and many parts were received from Lady Prestwich, being a gift of United States Geological Survey publications, and other works relating chiefly to North American geology, from the Library of the late Sir Joseph Prestwich, F.R.S.

The donations to the Library during 1896 were as follows:—

HOSPITAL.

The Hospital Committee deeply regret to record the death of two eminent members of the Consulting Staff, Sir John Eric Erichsen, Bart., F.R.C.S., F.R.S., and Sir J. Russell Reynolds, Bart., M.D., F.R.S., who for a long period of years gave the Charity their invaluable skill and services; and also that of the Rt. Hon. George Denman, who for many years was a most liberal supporter of the Hospital.

Her Majesty, Patron of the Hospital, has during the past year appointed Thomas Barlow, Esq., M.D., F.R.C.P., and Rickman J. Godlee, Esq., F.R.C.S., Physician and Surgeon respectively to Her Majesty's Household. These appointments have afforded much satisfaction to the Committee.

J. Rose Bradford, Esq., M.D., D.Sc., F.R.S., was appointed full Physician, having served seven years as Assistant Physician in charge of Out-patients.

Mr. G. B. Hunt, M.B., M.R.C.S., was appointed Resident Medical Officer, *vice* Dr. Hugh R. Smith, whose term of office expired.

The Committee have much pleasure in announcing that a Bed has been founded and named by the presentation of £1,000 from the children of the late Meyer Salaman, Esq., "in loving memory of their father," and, although the amount is not sufficient to permanently endow a Bed (£2,000 being the amount required), the Committee will gratefully accept like sums with similar objects.

A Legacy of £2,000 to the Re-building Fund of the Hospital was also received from the late Sir John Eric Erichsen.

In their last Report the Committee stated that a certain amount of delay had, of necessity, occurred in commencing building operations in connexion with the new Hospital, from the fact that the plan finally selected involved the acquisition of a larger number of leases than was originally contemplated.

The Committee have now the pleasure to report that although considerable difficulties have arisen in negociations for the property, arrangements for purchase of various houses required have been made, and it is intended at an early date to build a portion of the new Hospital from plans prepared by Mr. A. Waterhouse, R.A.

The Committee would again refer to the very serious financial state of the Charity. They urge all persons interested in the wellbeing of the sick poor to help the Committee with liberal donations to clear off the debt of £15,000.

Return of Services of the Members of Council from January 1st to December 31st, 1896, inclusive. Meetings of Council 14, of Committee of Management 20, of Senate 6.
